SnapMax - Ask for it by name

Invented in 1995 and sold worldwide, SnapMax saves growers time and money, whilst maximising vine growth for earlier returns. SnapMax is supplied pre-assembled so installation takes just seconds.

SnapMax benefits

- Protects vine from vermin & herbicides
- SnapMax provides better faster growth, straight to the wire
- Improved growth rates for earlier returns
- SnapMax trains vine straight to the wire
- Built in adjustability for ground/wire variation + 60mm for a fit perfectly every time
- Growing tip protective 'U' saddle at top
- Micro ventilation for vine health
- Translucent for drive-by vine inspection
- Durable tear resistant UV stabilised PE
- SnapMax is super-fast to install
- Reusable year after year

Assembled Vineguard UV Stable Polyethylene
with Attachment Clip and Snaphook Strap

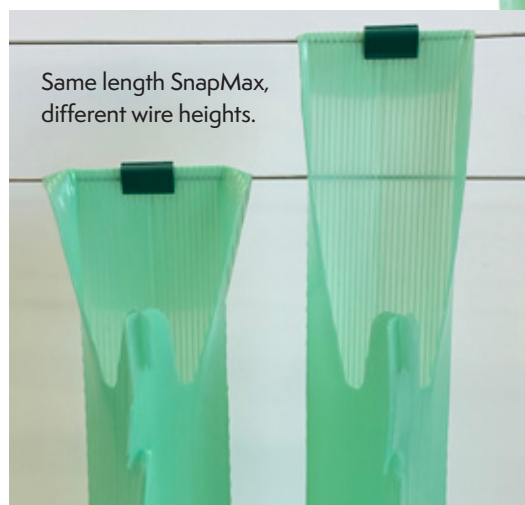

SNAP900/30ACS

Fits wire height up to 940mm

Other sizes made to order

NEW
Height adjustability

The newly upgraded SnapMax now comes with an extra 60mm so you can adjust height to the wire in case of ground variation.

SnapMax - Ask for it by name

Trellising straps

SnapHook straps are ideal for attaching vine guards or tree crops to trellis wires. For use in the:

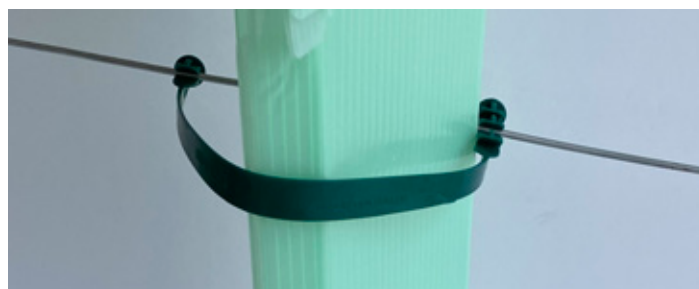

Vineyard - they are designed to hold the vine guard base to the Dripper Wire on windy sites.

Tree growing / tree crops - they are use with trellising to hold stems and to train and position branches.

Code:

SNAPHOOK21

Strap with 3 adjustable lengths
19, 20 & 21cm long

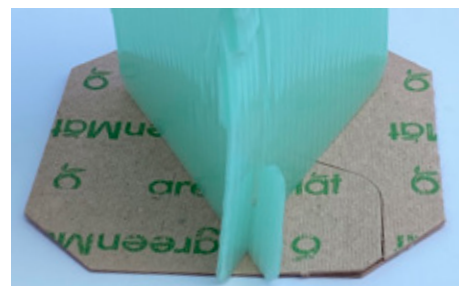

Vineguard Weedmat

Weedmats reduce weed competition and help preserve moisture around the base of new plantings.

Made from recycled paper and designed to work with vineguards to keep guards clear of weeds.

Size: 105x105mm.

Pack: Qty 500.

Horticulture

Global Green designs and manufactures a diverse range of tree guards to suit your application.

Sprayguard

Snapmax Sprayguards come pre-assembled ready to press open and install over newly planted vines and other plants.

- Includes bamboo stake slots for support.
- Made from durable tear resistant UV stabilised PE.
- Reusable year after year
- Can be supplied unassembled and other sizes available by order.

Revegetation

green-POD the enviro seedling guard changes everything in plant protection. The innovative green-POD, combines natural fibre and clever design to create the perfect guard for plants and the environment.

- Available in 2 shapes, round or triangle
- green-POD – is the new way to protect and grow healthy seedlings.
- Made from 100% recycled paper green-POD does not have plastic coatings so it protects the surrounding environment
- Life expectancy of 18 months+, recycled paper breaks down during growth of seedling
- Can be used with just one hardwood stake, the unique design, prevents guard from spinning in the wind.
- Simple to install
- green-POD's natural colour reduces the visual impact on the environment.
- Guard shields seedling from intense heat and weather fluctuations
- Protects from browsing animals and herbicide spray
- Add the specially designed GreenMat to improve plant survival and growth
