Eco-washer with electric water heating in high pressure with stainless steel patented boilers

- IDRO E-BOOST patent: pre-heated water in closed circuit is boosted up to 80 °C max. in high pressure

- Automatic technology that activates the internal pre-heating circuit when spray gun is not in use

- Direct connection to water supply

- 44 or 80 liters internal water tank for internal pre-heating

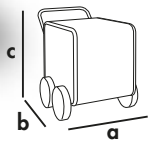

- Factory setting of pre-heating circuit thermostat

- Factory set pressure

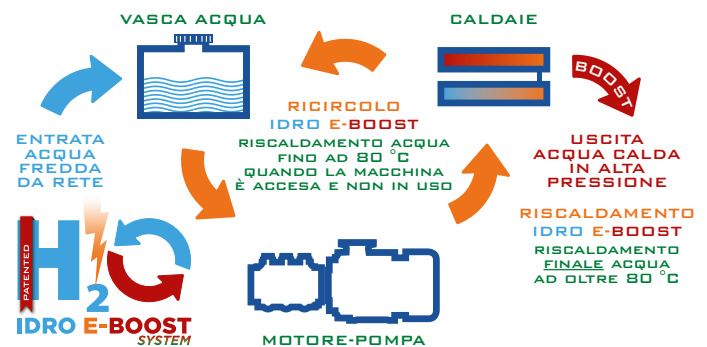

- Incorporated logic module controls functions and safety features -
Stainless steel frame and panels

- Optional for "treated" waters:

- CHEM version strengthened boilers
- stainless steel internal parts

a x b x c:
61 x 95 x 80 cm
75 x 95 x 80 cm
75 x 105 x 95 cm
