

BARIDA ATLAS M

Atlas M is a simple operation suitable for disgorging by removal of the crown cap, dosing liqueur (syrup) and levelling with wine.

Disgorge, dosage and levelling: Monobloc

- Suitable for bottles with a minimum diameter from 70mm to a maximum of 110mm and height of 230-380mm
- Ideal for small production
- All stainless steel
- A tank for the liqueur equipped with compressed air inlet (nitrogen) and regulator with gauge for pressure control
- Device for bottle placement to be used as a tank of wine for the operation of levelling
- A valve with an automatic operation for controlling the phase of levelling

Production is carried out with the help of an operator.

All parts that are in direct contact with the product are in stainless steel.

Bottle type	Glass (H230-380mm)
Weight	75kg
Size	500 x 900 x 1580mm
Compressed Air	34L
Production	150BPH
